CAN'T FIND DANDRUFF

Every bit of dandruff disappears fier one or two applications of Daniel ribbed well into the scalp with the finger tips. Get a small bottle of Danderine at any drug store for a few cents and save your hair. After several application, you can't find a particle of dandruff or any falling hair, and the scalp will never itch.—(Adv.)

CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

If cross, bilious, sick, feverish, or full of cold take no chances.

"California Syrup of Figs"can't harm tender stomach, liver, bowels.

Children love this "fruit laxative." and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the . wels, and the result is, to empty the . wels, and the result is, they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See it tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well, playful child again.

Millons of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never falls to act on the stomach, liver and bowels.

Ask your druggist for a bottle of "California Syrup of Figa," which has full directions for bables, children of all ages and for grown-ups plainly printed on the bottle. Beware of counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—(Adv.)

LABOR BADLY NEEDED

Council National Defense Will Insist on New Regulations.

Nashville, Sept. 22.—(Special.)—The State Council of National Defense is in receipt of a telegram from Washington to the effect that because of the present shortage of a million and a half skilled and unskilled laborers in war industries, with an increasing army coming, the most drastic instructions are today being issued by the secretary of labor to all community boards in the country urging them to prepare and publish in every city a list of nonessential positions held by men which could be filled by the employment of women.

CZECH NATION WILL BLOCK GERMAN

(Prof. Thomas G. Massryk, President of the Czecho-Siovak National Council, in an Interview With a Newspaper Enterprise Association Correspondent.)

Bismarck, who, despite the fact that he was German-born, never made any political blunders, said, "Whoever is the master of Bohemia is the master of Europe," and he certainly nevel said a thing more penetrating.

That is why we Czecho-Siovaks are fighting to the death to throw off the Teutonic yoke—because we, too, realize that we, of all European peoples, yonce German domination over us is dissolved, have the most dazzling of futures; and because we realize equally that if we do not win out, we will contribute most of all races to win for the Hohenzollerns their lustful desires for world power.

Our national aspiration is only to realize fully and completely what is within us, aided by the great material resources of our fat lands.

We are rich, marvelously rich in every way, as Bismarck told the world in his epigram—so rich in spirit, mind and matter that the average American has no conception of it. It is this fact that makes of it such a tragedy that we have for so long been suppressed, instead of being allowed to develop and to give to the world the great gifts we have for it.

PLAN FOR WORLD CONQUEST

writers and musicians that are abreast of those of all other highly civilized countries. But it is in politics that we will make

But it is in politics that we will make our great name, once we are a free republic, as we assuredly hall be, thanks to President Wilson. For our political wits have been sharpened by adversity, by our having to use them to preserve at all our national spirit. We are the natural political barrier to the great German dream—which is world domination by way of the east.

Would Sleck Germany.

Not only historically you will find that we have so far prevented Germany from extending to the east—for she has never been able to consolidate us with her nationality—but you will also find that by our goographical placement we oppose her trend to the great, rich east. We Czecha are a wedge into the very heart of Germany from the east—only over our dead spirit can she "carry on" in her bloody trip toward Bagdad. Once we are freed, we shall be a political stumbling block that this German plan will never climb over—Germany as the world-power is doomed the minute Czechs, and not the Austrians, make the treaty stipulations for the peoples whose capital is Prague, and will never be Vienna!

Politically we are gstute enough to see always through the Germans, as THE POLL OF LUMBON

Trained at Knoxville.

Washington. Sept. 23.—(Special.)—
The University of Tennessee, at Knoxville, has been designated as one of the institutions where there will be a naval section of the student army training corps. The number of boys who will be trained for the navy at this university will be limited to fifty.

A navy department representative will be stationed at the Knoxville institution and students subject to draft desiring to enroll in the United States naval unit or naval section at that school are directed to make their applications to that official.

The University of Tennessee is the only pollege in the state thus far designated for training navy recruits. Others may be authorized to establish the naval training units, but it is not anticipated that the designation of colleges for training apprentice seamen will be anything like as general as for training army material.

An enrolling officer of the navy will be sent to the University of Tennessee before Oct. I to perfect the arrangements. Students admitted into the naval reserve force will be placed on active duty pay, the allowance to pay the cost of their lodging. Subsistence and tuition will be at the same per diem rate as contained in the contract in existence between the institution

and the war department, but the naval students must make their own ar-rangements with regard to board, lodging and tuition, as the navy de-partment will not enter into contracts with the coileges.

ENGINEERING COURSE MAY BE ABANDONED

Dr. Brown Ayres Thinks Army Training Courses May Be Arranged for Women.

Arranged for Women.

Knoxville, Sept 23.—(Special.)—No session of the Summer School of the South may be held here in 1919, owing to the extension of the University of Tennessee session until June 21 and of the war courses for soldiers which will continue throughout the year. "We are now working under the awr despriment." said Dr. Ayres, "and we will make every effort to carry out all orders we receive. We have been asked to condense our engineering courses into two years of twelve months each in order to train men for government work, and a wire was received Friday stating that other information regarding the organization of other war courses is on its way to us. This means, of course, that the University of Tennessee will run twelve months of the year, and that if we are shie to conduct the summer session for teachers at all, it will mean that some very radical changes will have to be made in the work.

SEWANEE INN BURNED

Loss Estimated at About \$25,000—Belonged to University.

News has reached here that the Sewance inn, property of the University of the South, at Sewance. Tenn., was totally destroyed by fire yesterday afternoon about 4 o'clock. The loss is estimated at \$25,000. Firemen, with the help of students of the University and the Sewance Military academy managed to save a part of the contents of the building and to prevent the spreading of the fire to other nearby buildings on the campus.

campus.

The inn was a three-story frame building and was used to house about 50 students of the Sewanee Military academy. The office of the Western Union Telegraph company was located in the inn.
